

# Going Under

Wallows

Oh, I'm scared of going under  
Thinking that it's over with you  
Now my head has hit the pavement  
You've been isolating  
Slowing down

I hope it's better this year  
Tell me what I want to hear  
You hold it down when I can't speak  
You hold it down  
Just wake me up when it's over  
My headache shows when it's sober  
My heart, it races  
Can barely face it

Oh, I'm scared of going under  
If it's almost over with you  
Now my head has hit the pavement  
I've been oscillating  
Spinning 'round

Now I don't know where I'm turning  
Every step's a new end  
No way out

I sense it every night  
This feeling that I'll disregard all that we are and say goodby  
e  
But you know I would never leave  
Just give me time to think and figure out how I let it get this  
far  
Now you're screaming that you'll lose it all  
I'm so sure that we'll make it out once more  
And prove to you  
That you are more than I could ever need

Oh, I'm scared of going under  
If it's ever over with you  
Now my head has hit the pavement  
Just got to be patient  
And take our time
