## Wallows

I know you so well  
You know that I can tell  
the slightest difference in your facial expression  
Don't tell me nothing's on your mind  
If we're honest, it will all be fine

I'm someone who likes to talk things through  
The hardest thing is getting it out of you  
I should sit back and give you a break  
Let you close your perfect eyes

'Cause there's no need to explain  
I know what you want to say  
We could just say goodnight if you think that's alright  
There's no need to explain  
I know that we can relate  
Can we get up and try to feel okay again?  
O.K.

I'm getting too close  
You say you love me most  
It's hard to trust it even though I want to  
Need to get this shit out of my head  
Before I flip this on myself instead

Please come over here  
Lay your head right down  
Don't make a sound  
I hear you loud and clear

There's no need to explain  
I know what you want to say  
We could just say goodnight if you think that's alright  
There's no need to explain  
I know that we can relate  
Can we get up and try to feel okay again?  
Can we get up and try to feel okay again?  
O.K.

If we know we love each other, what's the concern?  
Fond with or without separation is what I've learned  
I'd wait for an hour, or I'd wait for a year  
Is your opinion on it something I want to hear?  
I know you never lie, but I self-sabotage  
I know your love isn't just a mirage  
But I tend to panic if I can't reach out and grab it  
I need to get out all these bad habits

There's no need to explain  
I know what you want to say  
We could just say goodnight if you think that's alright  
There's no need to explain  
I know that we can relate  
Can we get up and try to feel okay again?  
Can we get up and try to feel okay again?  
Hey

We can get up and try to feel okay again  
We can get up and try to feel okay again  
O.K.
