

## Permanent Price

Wallows

A bit of time  
I need it now  
If I'm too forward, slow me down  
But can you see I can't sleep?  
I wonder what it'd be like with you next to me

I think you're what's costing me

The permanent price  
The look in your eyes  
I know what you mean without saying a thing  
So please tell me now but don't let me down  
The words that you say are the price that I pay  
Feels like I've been running out of the means I need to survive  
I know I'm not ready to die  
I won't let it happen

Lock the door  
But what for?  
No one to walk in on me anymore  
Think my place needs a new face  
Feel free to occupy my space sometime  
Sometime

It feels like my skin's been keeping me in  
But you help me take it all on the chin  
Accept me for me  
Allow me to be a form of myself I've always wanted to see

Ooh  
Ooh

I need a release  
You're talking at me  
I know what you want  
I've got what you need  
I'm feeling a way  
A permanent way  
Well, what are your plans?  
I think you should stay  
'Cause I hope that we can feel the way we do now for all time  
I feel so content I could die  
I might let it happen
