

## Sidelines

## Wallows

We drove all night until you started to cry  
Because you saw a world without you and I  
Told me where your problems lie  
But I can't solve 'em  
Yeah, we gotta give it time  
Guess that's my problem

I see you loving on the sidelines  
I think about it at the wrong times  
I see you loving on the sidelines  
(I don't wanna know)  
Who you'll be taking with you tonight

I know I drew the line  
Can we erase it?  
We're living in denial  
But we can change this  
And I drove all night until I started to cry  
All because I saw a world without you and I  
Don't let this conversation die

I see you loving on the sidelines  
I think about it at the wrong times  
I see you loving on the sidelines  
(I don't wanna know)  
Who you'll be taking with you tonight

You've turned into  
Someone that I never knew

I see you loving on the sidelines  
I think about it at the wrong times  
I see you loving on the sidelines  
(I don't wanna know)  
Who you'll be taking with you tonight

You've turned into  
Someone that I never knew  
You've turned into  
Someone that I never knew
