

## Talk Like That

Wallows

Cut my heart in half, give it back when you talk like that  
Probably all in all, if they call, get a heart attack  
Feels more like your death, lost my breath, can you give me more?

Do it all again, by the end, tell me I'll be yours

Imply one thing and I'll think about it for days (Days)  
What's my reaction without giving it away?  
Lock me out when I hear it in your voice  
Looking back as if I ever had a choice

Cut my heart in half, give it back when you talk like that  
Probably all in all, if they call, get a heart attack  
Feels more like your death, lost my breath, can you give me more?

Do it all again, by the end, tell me I'll be yours

I'm just nervous so I'm thinkin' way too long (Long)  
'Cause they say it's 'cause I can't take it, then they're wrong  
'Cause they don't understand me, man  
You need the right man (I am the right man)  
You need the right man (I am the right man)  
You need the right man

Just wait 'til we're together, loves  
I'll tell you everything I'm thinking of

Cut my heart in half, give it back when you talk like that  
Probably all in all, if they call, get a heart attack  
Feels more like your death, lost my breath, can you give me more?

Do it all again, by the end, tell me I'll be yours

Cut my heart in half, give it back when you talk like that  
Probably all in all, if they call, get a heart attack  
Feels more like your death, lost my breath, can you give me more?

Do it all again, by the end, tell me I'll be...

Hey John, that last one was pretty good but, uh  
How do you change the station on this thing?
