

Hey there, safe travels  
Read it, I unravel  
Simple words that might  
Kill me, let's spend the night

Doing some virtual aerobics  
Hey, watch my grapevine and my side-kick  
I'm not too good, but I try my best  
Work hard no matter what happens next  
Wanna dress in what makes you like me  
I'll probably overwear these Nikes  
I'll clean them off when they get a scuff  
Tell me when you think they've had enough

There's no color in San Francisco  
You laughed and said, "Just look around you"  
Being here for the first time with you  
It lets me see it totally new

Yeah, you called me out like that (Like that)  
Yeah, you made me blush like that (Like that)  
Only been here one night, leavin' doesn't feel right  
We could live a life like that (Like that)  
I love how you move like that  
I love how you kiss like...  
When we aren't together, fuck all of the weather  
I'll get to your side like that  
Side like that, side like, side like...  
I'll get to your side like that  
Let's spend the night

Doing some virtual aerobics  
Hey, watch my grapevine and my side-kick  
I'm not too good, but I try my best  
Work hard no matter what happens next  
Wanna dress in what makes you like me  
I'll probably overwear these Nikes  
I'll clean them off when they get a scuff  
Tell me when you think they've had enough
