

## Worlds Apart

Wallows

Am I afraid of you?  
Do I pretend I don't care?  
Just like the stars can tell all the worlds apart  
I'll be here in the dark

Sit inside to watch the rain again  
I watched all of my movies from the end to the start  
I can't help but think about you now when the trailers start  
'Cause I know we're worlds apart

Now I stand here unknown  
A voice in the hall  
You're famous for something  
It's hard to recall

Will anything change?  
It's stuck on a play  
Our room is now vacant  
The beds are well made

Do I exist in your heart?  
Or did the ship sail away?  
While I was in the gift shop  
You swam with the sharks  
And I know we're worlds apart

Now I stand here unknown  
A voice in the hall  
You're famous for something  
It's hard to recall

We don't have a choice  
The curtains have closed  
I'm making a point  
But you'll never know  
Know, know, know
