Drive Away

Walter Egan

When I wake up in the morning
To the same old grind
I don't want to stay no more
Got but one thing on my mind

Drive away
Ooh, the feeling can't be beat
Drive away
Oh no, in no driver's seat

Well, I've nothin' to say
Put me in that car
Let me drive away

Well, I got so much to do
That I got no time left
I can feel it now
Uh, something's gotta give

Drive away
Well, just leave me alone
Drive away
With the key I'll be gone

I've nothin' to say
Put me in that car
Let me drive away
D-d-drive away

And I feel just like I'm flyin'

When I'm on the road drivin'
With my radio on, yeah

I forget the pain inside
Gonna heal with the feeling
Of my favorite song, yeah

When I wake up in the morning
To the same old grind
I don't want to stay no more
Got but one thing on my mind

Drive away
Well just leave me alone
Drive away
With the key I'll be gone

There's nothin' to say
Put me in that car
Let me drive away

Mmm, yes, there's nothin' to say
Put me in that car
Let me drive, drive

And there's nothing to say

In that car
Let me drive away
