

First Date Last Date

Walter Egan

In a coal dark room where the music's loud
She picked up my attention
Well, all I did was sit and drink and stare
I couldn't believe my bloodshot eyes
When she came in my direction

She smiled and said, "Hey, let's get out of here"
I recognized the chance I had
It's chemistry nobody cared
Not too good but she wasn't bad

First date, last date
Just a one time attraction
First date, last date
Only temporary satisfaction

I know I'm not the only one
To feel a little sorry for something
I might have done last night
You might think it's kind of dumb
But I never worry

I face the music in the morning light
She was a dream in the dark

But light can be so stark
Midnight peacock may be just a lark

First date, last date
Just a one time attraction
First date, last date
Only temporary satisfaction

Some girls only want to find one thing
A man they can marry
To give them houses, kids, security
But if the weight of such a life is more than you can carry
Just remember all those fish in the sea

There's good times up ahead for sure
Lots of girls want nothing more
Than just to clean their cheese tonight and yours

First date, last date
Just a one time attraction
First date, last date
Only temporary satisfaction
