

Heart

Walter Egan

Heart, I know that you've been broken
Heart, leave yourself wide open
Heart, you blindly go where you go
Heart, just like a leaf the wind blows

At first it always seems like
A long awaited dream's arrived
Silly fool, not so smart
She's got you but she's got no heart, no heart

Heart, you better run, don't turn around

Heart, she's gonna leave you downtown
Heart, how long before you pay the price?
Heart, when she is just as cold as ice

Yes she'll walk right past
Here she comes, heart you're beating so fast
Silly fool, not so smart
She's got you but she's got no heart, no heart
