

## Her Smile

Walter Egan

God help me  
But I feel bad  
Worst feelin'  
That I ever had  
I'm dancin' with despair

God knows how  
Just how hard I've tried  
Over and over  
Till I'm sick and tired  
Dreams vanish in thin air  
When I'm stuck in blue  
Her smile can pull me through  
Kind words spoken true  
Her smile makes me new

Old doubts  
Won't go away  
They haunt me  
Both night and day  
No safe place to hide

Forsaken  
And forlorn  
I'm shaken  
Feels so wrong  
So sad and unsatisfied

When I'm stuck in blue  
Her smile can pull me through  
Kind words spoken true  
Her smile makes me new

Makes me know at a glance  
That there's reason and a chance  
And it makes my day  
Makes the old bitter me  
A new refugee  
Ah the powers that be  
In the land of the free
