

## Like You Do

Walter Egan

If you think you can turn it away, now  
There's something wrong with you  
There's nothing more that I could say, now  
Would make it more true

Well, every day I want it just a little more  
And I won't change my mind  
Well, it can be anything that we hope for  
Let the time by

Nobody's ever been what you are  
Come this far  
Done what you can do  
No one has ever touched me like  
Loved me like  
Done me like you do

Well, it's a chance in a million, baby  
That you would come my way

And choose me like I choose you, woman  
Each and every day

Well, I'm not gonna leave you, baby  
You take it as a rule  
Well, I'm not a genius, babe  
But I ain't no fool

Nobody's ever been what you are  
Come this far  
Done what you can do  
No one has ever touched me like  
Loved me like  
Done me like you do

No one has ever been what you are  
Come this far  
Done what you can do  
No one has ever loved me like  
Touched me like  
Done me like you do
