

Man B. Goode

Walter Egan

It isn't magic
Oh, but it feels that way
I feel like it's gonna stay
Oh, I never felt so good

And from a tragedy
It looks like a love was born
A love like a brand new morn

And I finally understood
That I never could be bad to you
I'd only hurt myself

It won't be hard to remain true
I only want you now
And no one else

I can't believe the feeling
When love goes like it should
I learned it takes a love like yours
To make a man be good
To make a man be good

I wasn't happy
Confusion reigned in my eyes
A look you could recognize
I had nowhere to go

But when I met you
I felt like my life was saved
I felt like I'd turned a page
And I knew I loved you so

When I look ahead now
All I see is happiness for us
We can always make it through
Our love will always live when there is trust

I can't believe the feeling
When love goes like it should
I learned it takes a love like yours
To make a man be good
To make a man be good, ooh

To make a man be good
To make a man be good
To make a man be good
To make a man be good

To make a man be good
To make a man be good
To make a man be good
