

Don't Do The Things He'd Do

Wanda Jackson

Don't say goodnight like he would do
Don't whisper low I love you true
Like he would do as he held me tight
Just kiss me soft then say goodnight

Don't do the things that remind me of him
Though time has made the memory dim
I still recall through bitter tears
His love just left me lonely years

It isn't fair to you are me
Our love would be just misery
My heart can't stand the things you do
For I see him instead of you

If don't change we'll have to part
Though it will cause two broken hearts
Love must be strong enough to last
So I'll forget about the past
