Down Past the Bottom

Wanda Jackson

Down past he bottom, falling harder than a stone Get to handlin the good times that I've known Sinking lower and lower Down past the bottom where the devil won't go

Down past the bottom, nothing left to do but fade No place to wonder, nowhere left to sail Sinking lower and lower Down past the bottom where the devil don't dwell

I got the feeling in your last letter Could've been a little nicer, treated you better Just to have a hold of the time for thinking A lot of time for walking, a lot of time for thinking

Down past the bottom Down past the bottom where the devil won't go

I got the feeling in your last letter Could've been a little nicer, treated you better Just to have a hold of the time for thinking A lot of time for walking, a lot of time for thinking

Down past the bottom Where the devil won't go

Down past he bottom, falling harder than a stone Get to handlin the good times that I've known Sinking lower and lower Down past the bottom where the devil won't go
