

# Again

Wande Coal

Sweet like water weh dey inside coconut  
Sip after sip you give me stamina  
Wait for you so the same time we commot  
Me and you na the same time  
I never want to leave omo  
So dance with me omo  
I pull up on your beach omo  
It's time to swim omo

Baby girl make you no dey lie  
Make you tell your friends say you dey feel this guy  
No need to waste time cos na me you go follow till the day we die  
But meanwhile, I can't wait make your face just smile  
It's not a lie, you set my soul on fire

So many girls have passed through, none of the girls fine pass you  
So many things you've been through  
Promise life wouldn't be the same again oh  
Wouldn't be the same again, would never be the same again  
Would never be the same again, never be the same again

No mind them dem dey lie to you  
Dem talk say me I too bad for you  
No mind them dem dey lie to you  
Dem talk say me I too bad for you

Say my heart na glass don't break it o, break it oh  
Take it oh, take it oh

Baby girl make you no dey lie  
Make you tell your friends say you dey feel this guy  
No need to waste time cos na me you go follow till the day we die  
But meanwhile, I can't wait make your face just smile  
It's not a lie, you set my soul on fire

So many girls have passed through, none of the girls fine pass you  
So many things you've been through  
Promise life wouldn't be the same again oh  
Wouldn't be the same again, would never be the same again  
Would never be the same again, never be the same again
