

Falling for U

Wanessa

It's so clear
Can't hide my pride when I have you near
It's no surprise love has knocked me down
'Cause I saw heaven in your eyes
It's so strong
Can't help myself when I feel it's wrong
Something inside me says "Take a chance"
Want to try on this romance

No matter we're from worlds apart
Who said that we would get this far
It's so platonic but it's true
I just keep on falling

I keep on falling for you
I keep on falling in love with you
Can you make this feeling last forever?
All you gotta do is say you feel it too
I keep on falling for you
I keep on falling in love with you
Can't you see that we belong together?
All you gotta do is say you feel it too
