

Satan Is My Meaning Of Music

War for War

A million tanks on the battlefield
Forward in war through falling crosses
Satan, my dark father, orders death, for killing people
Red eyes of the devil are windows into a better world full of blood from god, full of evil
Satan will never give up harming god
The guns of Satan's warriors aim very precisely
They hit into the heads and hearts of their lowly prey
On bloody plains lie exactly one thousand and growing

The devil knows well - what the dark side is
The devil knows well - how many hours passed
The devil knows well - what is a dark funeral
The devil knows well - why christ must always be killed

It's necessary for all evil to be done in the name of all swedish black metal bands
Which always had the need to call out against god
Very much they gave and are still giving in texts for Satan
The word satan in fact sounds very good
Amazing sounds also devil, darkness, death and shadows
Hellish lords of northern bands now lead me by my hand
I also write Satan a lot, this is why I do all of this

Satan is my dark lord
Satan is my black king
Satan is my symbol of faith
Satan is my meaning of music

Tank commanders heads are split with something black
It smells of battle, result is the essence of death
From all sides raging machines like walls of noise
Satan, lord, father, look after this work
With every thought stab the non believers
non believers in evil, you, Satan, Devil and Master

Satan is my dark lord
Satan is my black king
Satan is my symbol of faith
Satan is my meaning of music
