

## Terror Attack

War Of Words

it's time. you still can't fathom why  
by land or by sea or by air we don't care  
you will pay for you greed with your lives  
sacrifice for god and country a familiar cause indeed  
does thought cross your mind and does it occur  
when you suffer you suffer the hate of the rest of the world

terror attack on the chosen kind  
terror attack are you asking why  
terror attack many more will die  
terror attack and you better run for your lives
