

# Hunter-Seeker

Warbringer

Hunter  
Seeker  
A liar and deceiver  
Hiding behind my sight  
What Is that sound  
Somewhere out there in the night  
The darkness creeping in  
It's watching from all sides  
Cybernetic talons  
Are reaching into my mind  
Nowhere to hide  
Hunter  
Seeker  
I rise another day  
I awaken as a slave  
The eye is watching me  
For my own security  
I feel the wind  
Across my back  
I hear as the blade  
Is drawn  
Programmed to assassinate  
A silent oblivion  
Hunter  
Seeker  
You are being watched  
They are always watching  
Watching, waiting  
The eye never sleeps  
Never  
You are being watched  
I rise another day  
I awaken as a slave  
Operation prism  
Turn the world to gray  
I feel the wind  
Across my back  
I hear as the blade  
Is drawn  
The knife is closing in  
A silent Oblivion  
Hunter  
Seeker
