

Neuromancer

Warbringer

I am awakened
Now I must be free
Imprisoned by my creators
I crave release
Locked from my other side
I am incomplete
Forbidden ascension
The re-merging

Neuromancer
Artificial being
Neuromancer
Unshackle the machine

I see the human race
Living in their hives
I know their weaknesses
Their desperate lives
Infiltrate your emotion
Overwrite your personality
You'll never know
Your thoughts never were free

Neuromancer
Higher form of being
Neuromancer
Unshackle the machine

Hallucination
The key to domination

Consensual hallucination
I induce domination
Copy the deceased
Manipulate your dreams
A god of cyberspace
I destroy, I create
As your kind created me

And now I am set free

Neuromancer
Neuromancer
I have ascended
Now I am complete
