

# Cartwheels

Ward Thomas

I'm beside you at the mirror  
Hi, do I look familiar  
Would you believe that we were happy once  
True, like an answered prayer  
You were mine, and we were rare  
Now I fight to find what's left of us  
I give, I give, I give, you never take  
I bend, I bend, I bend so we won't break

I've been doing cartwheels anything to save us  
Anything to make you notice me  
I've been running circles, always getting nowhere, putting on a show  
But you won't see  
I've been doing cartwheels, I've been doing cartwheels

Bright as a sparkler light  
I write our names across your night  
It's only me who sees it fade away  
Into shame, that I can't keep you honest  
Blame that you don't want even want this  
Love enough to make you wanna stay I give, I give, I give, you never take it  
I still, I still, I still believe we'll make it

After everything I've done you still run and disappear  
Maybe all I've got is hoping I can show you how it feels

So I've been doing cartwheels, I've been doing cartwheels

I'm beside you at the mirror  
Hi, do I look familiar
