

# Company

Ward Thomas

There are times when the day is finished with me  
My mind, plays the conversations that we  
Had then, when nothing seemed to be too pressing  
Everything is just easy

I made a list from memory of all the things you've done for me  
And every word a discovery, reflecting back what you mean to me  
So I'll take my words and I'll keep 'em safe - rest assure I'll  
appreciate that

I just wanna be in your company  
I just really need your company  
I just wanna be in your company

It's been said that blood runs thicker than water  
I've read absence makes the heard grow fonder  
In my head, reasons just keep getting stronger  
Everything should be this easy

I remember times you made me laugh, and told a joke on my behal  
f  
You're so in tune with what's going on, I had to put it down in  
song  
It's not every day you find a friend with an open door and an e  
ar to bend

I just wanna be in your company  
I just really need your company  
I just wanna be in your company

People with forget what you did and  
People will forget what you said  
But they never forget the way that you make them feel

I made a list from memory of all the things you've done for me  
And every word a discovery, reflecting back what you mean to me  
So I'll take my words and I'll keep 'em safe - rest assure I'll  
appreciate that

I just wanna be in your company  
I just really need your company  
I just wanna be in your company
