

# Don't Be A Stranger

Ward Thomas

Summer days and endless nights  
Talking till the sun would rise  
Belly full of butterflies  
Before we had all these goodbyes

But lately you've been far from me  
My heart's missing, skipping a beat  
Nothing sweeps me off my feet  
Till you're with me

Lover, don't be a stranger  
Don't you say a word, just pull me in  
Stranger, come be my lover  
Come discover me all over again

Come a little, come a little closer  
Before the night is over  
Come a little, come a little closer  
Lover, don't be a stranger

Come and put your hands in mine  
Hold me as the world goes by  
God, I miss these secret smiles  
The way you're giving me those eyes

Cause lately you've been far from me  
My heart's missing, skipping a beat  
Nothing sweeps me off my feet  
Till you're with me

Lover, don't be a stranger  
Don't you say a word, just pull me in  
Stranger, come be my lover  
Come discover me all over again

Come a little, come a little closer  
Before the night is over  
Come a little, come a little closer  
Lover, don't be a stranger

Come a little, come a little closer  
Before the night is over  
Come a little, come a little closer  
Lover, don't be a stranger

Lover, don't be a stranger  
Don't you say a word, just pull me in  
Stranger, come be my lover  
Come discover me all over again

Come a little, come a little closer  
Before the night is over  
Come a little, come a little closer  
Lover, don't be a stranger

Come a little, come a little closer  
Before the night is over

Come a little, come a little closer  
Lover, don't be a stranger
