

Sliver of Eternity

Wardrum

Sliver of eternity
Life is like a dream
Be what you can be

Stumble into roads of wrong
But don't stay for long
Things are what they seem

Then just spread your wings and fly away
For the night comes down your way

Life is moments drowning in feelings
In a strenuous grueling climb
And death has only one meaning
To reveal our unwitting crime
The useless waste of time

Sliver of eternity
Life's a surging sea
Sink or you can swim

Feel the searing pain of loss
Thrills you come across
Let it all come in

And all of the best this world could give
You can have eternally

Life is moments drowning in feelings
In a strenuous grueling climb
And death has only one meaning
To reveal our unwitting crime
The useless waste of time

Life is moments drowning in feelings
Life's a motion life just goes on

Life is moments drowning in feelings
In a strenuous grueling climb
And death has only one meaning
To reveal our unwitting crime
The useless waste of time
