

Limit Crescendo

Warfare

Louder I hear you shout yes I can hear you call
Louder you start to scream but I won't hear the fall
Louder youre ears bleed the nerve end is red raw
Louder feedback screeching you cant take no more

When I say we gonna rock,
We'll rock you till ya drop,
Right over the top

This is limit crescendo

Louder just for kicks you crank it up some more
Louder you've drank so much until your head is sore
Louder but it gets worse volume its in your blood
Louder youre in a spin crescendo feels so good

When I say we're really loud,
We detonate the crowd then watch you burn in hell

This is limit crescendo

Louder a stylus scratch your speakers start to blow
Louder electric shock the hi fi starts to glow
Louder you feel a jolt then higher!! Its a fuzz
Louder a way out trip distortion what a buzz
