

## Strangled

### Warfare

A railway power station a dream to dedication  
Survival is the key or you'll get no luxury  
It's not hard for me to swallow  
watchin fools who try to follow  
A run down superficial feel a five year curse  
don't ever kneel  
We are born but we all die  
no one knows the reason why  
Are we happy are we sad  
are we good or are we bad  
Don't you send me back to school  
don't dictate your stupid rule  
I'm so scared my mind is tangled  
I don't wanna wake up strangled  
Feel the burning heat coming from the street  
Don't catch a ray of death  
don't stop to loose your breath  
Nonsense wisdom there is no order  
put it down on tape recorder  
Sing! Sing! Sing! Sing! Disorder louder louder no order  
The light still shining bright it shines into the night  
Don't catch its ray of death don't stop or lose your breath  
Made their grade to grammer school stupid rules but I'm no fool  
You may say a great believer some may say a great achiever  
The lights still burning bright it shines into the night
