This Machine Kills

Warfare

Spinning around im going out of my head,
I dont know if its day or night
Adrenalin reaction see a flash in my brain
A bad trip gotta hold on tight

You got me spinning around and around,
I'm really losin my mind,
Crashing falling, then I'm hittin the ground,
Depart from this hell ride
Kill this machine it kills

The louder you scream the faster we go
Financial power then hit the road
FaIlin so fast as I hit the ground
Another gig just another load

Intensive care gotta get out fast
This sure aint the time of my life
Missile in my brain am I going insane
A hell ward uncanny plight

Kill this machine kills
