

## Bad Seed

WARGASM

(Listen all you mother fuckers)

Your tongue's been running hot  
Oh boy did you get caught  
You took a swing and missed  
Now you deserve this  
You chose to be yourself  
You coulda been anyone else  
'Cause you're not good for my health  
'Cause you're no good and well, I

Find myself enamoured by the way  
That you are so perfect  
You can care about the way we move  
Keep on talking and I'll love you up the way that you love me  
Guess I better start running & gunning & running

You keep tugging at my teeth  
Like you're begging for the beast  
Keep your motor mouth  
Just running & running & running  
'Cause the last man standing gets a fat lip  
Dust my knuckles keep a tight grip  
I'll be there just running and gunning and running

(Running and gunning and running)  
(Running and gunning and running)  
Bitch!  
(Running and gunning and running)

I keep myself to myself  
You find your comfort in hell  
Now that's not good for your health  
Now that's not good  
You got your face all painted like a target  
Yeah we could use the practice  
I'll be there just running and gunning and running

Yeah so you kill time watching cult movies  
And fishing in the Dead Sea  
Something's gone wrong  
Y'know the last man standing gets a fat lip  
Dust my knuckles keep a tight grip  
I'll be there just running and gunning and running  
Running and gunning and running  
Running and gunning and running  
Running and gunning and running

(Listen all you mother fuckers)

(Yo milkie!)  
(Yeah?)

I'll  
Be running and gunning  
Make damn sure you see me coming  
Oh hell Now I ain't a surgeon

But there's something in you missing  
It's a hole I can piss in  
I'm getting tired of forgiving  
Let's use a scalpel to start and a buzzsaw to finish

Spreading like a bad seed  
They love me then they hate me  
Swinging at the paps, please  
You can call me Britney  
Nipples under crosses  
Better cut your losses  
Banging on my own drum  
McClain, a machine gun

Bitch!  
Running and gunning and gunning
