

Lapdance

WARGASM

I'm an outlaw (I'm an outlaw)
Quick on the draw (Quick on the draw)
Somethin' you've never seen before (Somethin' you've never seen)
And I dare a motherfucker to come in my face
I got somethin' chrome (I got somethin' chrome)
And I brought it from home (And I brought it from home)
And it ain't a microphone (It ain't a microphone)
So I dare a motherfucker to come in my face

It's so real, how I feel
'Cause this society makes a motherfucker wanna kill
And I'm just straight ill ridin' my motorcycle down the streets
But all these politicians, they're soundin' like strippers to me
They keep sayin' but I don't want to hear it

Oh baby you want me?
Oh baby you want me?
Oh baby you want me?
Well you can get this lap dance here for free
You can get this lap dance here for free
You can get this lap dance here for free
Oh baby you want me?
Well you can get this lap dance here for free

It's a raw night (It's a raw night)
Who wants to bar fight? (Who wants to bar fight?)
Well come on alright
And I dare a motherfucker to come in my face
Baseball bats
I got somethin' for that
It goes bla ka ka kat
So I dare a motherfucker to come in my face

It's so real, how I feel
Cause this society makes a motherfucker wanna kill (Kill, kill kill)
And I'm just straight I'll ridin' my motorcycle down the streets
But now the government, they're soundin' like strippers to me
They keep sayin' but I don't want to hear it

Oh baby you want me?
Oh baby you want me?
Oh baby you want me?
Well you can get this lap dance here for free
You can get this lap dance here for free
You can get this lap dance here for free
Oh baby you want me?
Well you can get this lap dance here for free

When you think about me, think of a Harley
Blue denim, spiked wrists it's gon' be
Slap-screws and tattoos that's all me
Two guns, both arms, feelin' like Fonzie
You can find me drunk, whippin' it, might crash
Or find me chillin' with crackers who like thrash
Find me in court smokin' that nice grass
Burnin' the flag, all in the name of white trash
It's Milkie, baby, Christ on the arm

I'm gnarly baby, fuck with me? Not hardly, baby
And you know the flow ungodly, baby
So let's party baby!

Oh baby you want me?
Oh baby you want me?
Oh baby you want me?
Well you can get this lap dance here for free
You can get this lap dance here for free
You can get this lap dance here for free
Oh baby you want me?
Well you can get this lap dance here for free

Oh baby you want me?
Well you can get this lap dance here for free
