

# Pyro Pyro

WARGASM

Are you ready?

We're in a messed up situation  
A messed up situation  
I've got a chest so tight it's caged my lungs  
Even Houdini couldn't get out of this one  
I'm reeling by the day  
Can't seem to make sense of this place  
I call my head  
Better get the fuck out of my way

We're all starting to get a little psycho, psycho (Yeah!)  
And if you keep us locked up we're gonna burn it down like pyro, pyro  
It's been sixteen weeks  
Can't swallow this  
Hard medicine

Hey, hey, bring out your dead  
Wash off the life and go back to bed  
Chlorine, chlorine in my dreams  
Chlorine you're my everything  
Ladies and gentlemen what we are now experiencing is known as the tipping point  
The world feels faster when you're falling and the city's brighter when it's burning

We're all starting to get a little psycho, psycho (Yeah!)  
And if you keep us locked up we're gonna burn it down like pyro, pyro  
It's been sixteen weeks  
Can't swallow this  
Hard medicine

Dress me up and wipe me clean  
Shadows always cling to me  
Paper bodies in the streets  
They came unplugged from the big machine  
Lovers lost to the beast that feeds  
Giving birth to insanity  
Burning cities in my dreams  
I've come unplugged from the big machine

There's blood, there's blood  
Strike your matches till they're used up  
This is too big for us to topple  
Bring wood and oil  
There's blood, there's blood  
Strike your matches till they're used up  
This is too big for us to topple  
Bring wood and oil

Hey hey, bring out your dead
