

# Shut Up

WARGASM

Every day, you run your mouth at me  
Why can't you fucking see  
I don't care what you have to say?  
Every day, you think you're fucking great  
But honestly you're shit just like me

Shut the fuck up  
Shut the fuck up

Shut the fuck up, don't look at me  
I'll put you in your grave so tread carefully  
Shut the fuck up, don't look at me  
I'll put you all down for the one, two, three

There's no silence  
It makes a girl feel a little violent  
You're always talking but you never say a thing  
I've got them low rise jeans and your spine around my hips  
They say the pen speaks louder but I'd rather use a brick  
Yeah the gag's not working and your mouth keeps churning out this shit  
I'm gonna commit, I'm gonna commit  
You gotta tell me something I don't know  
You've unleashed the bitch and now I'm sick sick six

Shut the fuck up  
Shut the fuck up

Shut the fuck up, don't look at me  
I'll put you in your grave so tread carefully  
Shut the fuck up, don't look at me  
I'll put you all down for the one (One), two (Two), three (Three, go!)

Shut the fuck up  
Shut the fuck up

Bite your tongue, your words are useless  
Bite your tongue, your words are useless  
Bite your tongue, your words are useless  
Bite your tongue, your words are useless  
LET'S GO!

Bite your tongue, your words are useless (Useless)  
Bite your tongue, your words are useless  
(Shut the fuck up)

Shut the fuck up, don't look at me  
I'll put you in your grave so tread carefully  
Shut the fuck up, don't look at me (No looking)  
I'll put you all down for the one (One), two (Two), three (Three, go!)

Shut the fuck up (Shut the fuck up)  
Shut the fuck up
