

Venom

WARGASM

My whole existence is a momentary lapse in reason
We're all fucked up with nothing to do
Why can't I sleep and why's the thin man in the corner staring?
He didn't learn his lesson
So I reach for a weapon
I get confused sometimes 'cause I was raised on television
My head's a hemorrhage, heavy damage
Spitting blood like venom
But if you stand too close
Then I slip out of view
The world needs less of me
And more of you

We got that blood like venom, yeah
I got, you got
We all got that blood like venom

My whole existence is a momentary lapse in reason
All dressed up with nowhere to go
So I sit pretty on my bed and flirt with thoughts of treason
Then I'm as happy as a brick through a window

Those fangs look so shiny like the edge of a knife
Sink 'em in to me
I won't scream, I want you to bite
Nothing I say matters
What a dumb little life
But there's a pulse in my veins
We're not the same
We're not the same

Oh, we got, we got, oh
We got that blood like venom, yeah
Yeah, yeah
I got, you got
We all got that blood like venom

Do you hate us 'cause we scare you?
'Cause we do the things you could never do
When I step into the ring and you think I look cute
I'll start fucking up your brain like watching porn on mute

Venom, the metal
The brick beneath the pedal
There's no brakes when you're running with the devil
Truth is
You only know what we know
Only go where we go

But we got these fangs
Look so shiny like the edge of a knife
Sink 'em in
Sink 'em in
Don't scream oh you want me to bite
Nothing we say matters what a sad little life
But there's poison in our veins
We're not the same as them

Oh, we got, we got, oh!
We got that blood like venom, yeah
Yeah, yeah
I got, you got
We all got that blood like venom

So shed a layer, come on
Try on some new skin
I got, you got
We all got that blood like venom
Inhale, inhale, taste the poison
Breathe it in

My whole existence is a momentary lapse in reason
We're all fucked up with nothing to do
Why can't I sleep and why's the thin man in the corner staring?
He didn't learn his lesson
So I reach for a weapon

I got, you got
We all got that blood like venom
Inhale, exhale
We all got that blood like venom
I got, you got
We all got that blood like venom
Inhale, exhale
We all got that blood like venom
