

# Dangerous

Warhaus

You gotta shake the tree boy  
Shake it long before you know  
Whatever that may come down  
Whatever fruit that it may grow

If you could touch it all where would you start?  
If you want to touch the soul then touch it hard  
But if you touch it wrong boy then it will fall apart

We better leave it alone we got to leave it alone

When it's dangerous  
Dangerous  
Dangerous  
We need it honey just like it needs us

I wanna turn to you girl  
Now that the stars are out  
And a softer kind of love is  
Hard to think about

If it excited me you know it did  
Then who the fuck am I to question it?  
But if we touch it wrong girl  
Then it will fall apart

We gotta leave it alone, we better leave it alone

Cause it's dangerous, hmm  
Dangerous, yeah  
Dangerous  
We need it honey just like it needs us

Dangerous, yeah  
Dangerous, ah  
Dangerous  
We need it honey just like it needs us

Cause it's dangerous, hmm  
Dangerous, yeah  
Dangerous  
We need it honey just like it needs us

Dangerous, yeah  
Dangerous, ah  
Dangerous  
We need it honey just like it needs us
