# Desire

**Warhaus**

There's a god, there is one of love
And many others in the sky above
If there's a god dying for your sins
Then there's another stepping in

No matter what I turn to, I turn to
It's failing me

There's the god for your inner peace
The god of lust has him on a leash
The one who tripped and then fell from grace
And the one who's renting out the place

No matter what I turn to, I turn to
It's failing me
No matter what I turn to, I turn to
It's failing me

Oooh, desire
Oooh, go easy on me
Oooh, desire
Oooh, desire
Oooh, go easy on me
Oooh, desire

There's a god who can not disclose
What the one of your children knows
There's a god in the machinery
There's one sleeping with the enemy

There's a god for your shopping list
There's one hidden from the communist
There's a god that we wanna praise
For spiking the drinks of the human race

No matter what I turn to, I turn to
It's failing me
No matter what I turn to, I turn to
It's failing me

Oooh, desire
Oooh, go easy on me
Oooh, desire
Oooh, desire
Oooh, go easy on me
Oooh, desire
