Emely

Warhaus

Be true to yourself my dearest
And be true to the things you swore
Stay true to me until
I ask you for more

Tell me what is your take on the movie?
We watched an elephant that could fly with its ears
The very things that are holding you down
Can lift you up, my dear

Cause Emely you wanted me to take turns
I just wanted you to go my way
If I could take it back I would repeat it
One more time before you turn away

Can you hear my heart beating like a freight train
Carrying memories like an elephant parade
Darling now, right now, I've seen everything
But have you? have you, my dear?

Cause Emely you wanted me to take turns
I just wanted us to head on straight
If I could take it back I would repeat it
A thousand times before you turn away

Cause Emely you wanted me to take turns
I just wanted you to go my way
If I could take it back I would repeat it
One more time before you turn away

Cause Emely you wanted me to take turns
I just wanted us to head on straight
