

# Everybody

Warhaus

Take a look around  
And tell me can you see what I can see?  
It is them or is it me?  
Who's the douchebag

There's confetti in my mind  
And it just keeps on raining down  
I can feel it slowly gaining ground  
Here without you

Everybody everybody everybody everybody's better  
Off if we're together  
Girl if you only knew

Everybody everybody everybody everybody's better  
Off if we're together  
Girl if you only knew

Was it heaven or hell  
It's hard to say exactly what it was I've seen  
Probably just some festival in between  
Somewhere without you

To the bottom of some kind  
Of twisted mystery I thought I would sink  
But life's not complicated when I drink  
No, not without you

Everybody everybody everybody everybody's better  
Off if we're together  
Girl if you only knew

Yeah  
Everybody everybody everybody everybody's better  
Off if we're together  
Girl if you only knew

I hear voices, babe they are praying  
Can't you hear what they're saying?  
God knows you should be staying  
Here with me

Ohh

Hmm  
Hmm

And  
Everybody everybody everybody everybody's better  
Off if we're together  
Girl if you only knew

Yeah  
Everybody everybody everybody everybody's better  
Off if we're together  
Ah girl if you only knew

Oh

Everybody everybody everybody everybody's better

Off if we're together

If you only knew

Oh girl

Everybody everybody everybody everybody's better

Off if we're together

If you only knew
