

Love's A Stranger

Warhaus

Will you let me in
Or take it away?
Let me choose you again
Tomorrow is a night away

If love's looking down
On all that we do
We're provocative babe
Me and you

Love's a stranger
Until I see you again
Love's a stranger
Until I see you again
We want to know how far that it can bend
We just want to know how far that it can bend

They say it's naive
How we're passing by
Trying to look
The entire world right in the eye

If angels decide
Will they let us be?
Cause we're provocative babe
You and me

Love's a stranger
Until I see you again
Love's a stranger
Until I see you again
We want to know how far that it can bend
We just want to know how far that it can bend

Yeah
It's so hard to possess
It's a beautiful mess
Time after time
It's so hard to possess
It's a beautiful mess
Time after time

Ah girl you're so hard to possess
Such a beautiful mess
Time after time

Oh, so hard to possess
You're a beautiful mess
Time after time
Now you sing it girl

Love's a stranger
Until I see you again
Love's a stranger
Until I see you again
We want to know how far that it can bend
We want to know how far that it can bend

Ohhh
Love's a stranger
Until I see you again ohh
Love's a stranger
Until I see you again
We just want to know how far that it can bend
We want to know how far that it can bend
