

# Switches And Things

Warhol.SS

Yeah

(Ben, that's amazing)

Put a switch on the Glock, when it shoot one time like five rounds

Pew, pew, pew

Uh, aye

Let's go

Put a switch on the Glock, when it shoot one time like five rounds comin'

Nigga we big boss bomin'

I brought a 15 pack in the spot, they bad and now more comin'

Nigga that's pimp shit for you

Ain't no attempts where I'm from

Nigga shoot with his eyes closed

Young nigga tryna' send em' home quick

What you think these hollow tips for?

I can't show em' how you post pimp hoes

Damn near might pop a lymph node

FN ain't no damn pistol

Why they trace my shit? Stencil

Big drip I'ma leave a puddle

Every sip I took I loved

Every bitch I fucked I nutted

Better know how to act, we in public

See most of my flexes subtle, Saint Laurent hoodie ain't got a logo

Yo' bitch be jumpin' dick for dick, damn near gave her a pogo

Stitches labeled Greg Lauren, nigga this ain't no Polo

I paid a band for this lil' hoodie, but you niggas wanna' know though

We get a bag and saran wrap it and I'm gon' fly it solo

I don't need no hotel, there and back, it's quick though

For good dope, still blow out the window

Take a nigga life, I am not the pope

In the [?] creep low

NYC, drip from Paris, young nigga shop from the window

You ain't finna spend no money, niggas ain't gettin' no money

Nigga think he finna pop the seal on the pint, but it's a dummy

Take a bitch to the crib, pop a Perc 10, get in her tummy

I'm with trappers, scammers, robbers and I got killers beside me

Woke up off a blue Xan, irritated, I'm feelin' groggy

Put a switch on the Glock, when it shoot one time like five rounds comin'

Nigga we big boss bomin'

I brought a 15 pack in the spot, they bad and now more comin'

Nigga that's pimp shit for you

Ain't no attempts where I'm from

Nigga shoot with his eyes closed

Young nigga tryna' send em' home quick

What you think these hollow tips for?

I can't show em' how you post pimp hoes

Damn near might pop a lymph node
