

# Battle Cry

Warkings

Rise and fall, live and cry  
Enlight the darkness, ride the sky  
Heroes are born and heroes die  
Our fate will burn

Fallen brothers, side by side  
In the rage of battle, we ride to die  
Blood for freedom, skull and bones  
Shadows and dust, for the glory of Rome

Here I stand  
When the shadows rise across the broken land  
Here I stand  
All alone, all my brothers dead and gone  
I raise my sword to the sky  
Hear my battle cry

Live to kill, kill to live  
Steel meets steel, our lives we give  
From this day until the end  
For the eagle, our life we'll spend

Here I stand  
When the shadows rise across the broken land  
Here I stand  
All alone, all my brothers dead and gone  
I raise my sword to the sky  
Hear my battle cry

(Hear my battle cry)

Here I stand  
When the shadows rise across the broken land  
Here I stand  
All alone, all my brothers dead and gone  
I raise my sword to the sky  
Hear my battle cry
