

Holy Storm

Warkings

I am chasing all my dreams - far away, far away
And there's nothing like it seems - here I stand, here I stand
And I will die - on holy ground, on holy ground
A sacred lie - for the crown, for the crown

Is this all just a dream?
Nightmare without light
The pain, I can't deny

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm

We are lost on sacred ground - all alone, all alone
Only faith will keep us strong - no retreat, no retreat
And men will die - a holy war, a holy war
A thousand cries - crimson tears, crimson tears

Is this all just a dream?
Nightmare without light
The pain, I can't deny

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm

The battle beast is rising (Rising)
The war machine is marching on
The battle beast is rising (Rising)
Holy storm
