

Kill For The King

Warkings

We are the duty - we are allegiant
Fear our steps, we bring justice to all
We are his word and his blade in the darkness
The last defence - no one will pass

We are the last wall
Guardians of the throne
We will never fail

Kill kill for the king
Let it begin
Kill for the king
Hail hail to the crown
We bring em down
Kill for the king

We are his fury, hammer and anvil
When all hope fails, we will stand our ground
We are the allhearts, guarding his fortress
The last wall, and we never back down

We are the kingsguard
Protectors of the crown
We will never fail

Kill kill for the king
Let it begin
Kill for the king
Hail hail to the crown
We bring em down
Kill for the king

We are the last wall

Kill kill for the king
Let it begin
Kill for the king

Kill kill for the king
Let it begin
Kill for the king
Hail hail to the crown
We bring em down
Kill for the king
