

# Monsters

## Warkings

We are the monsters

When the sun goes down tonight  
All the ghouls come out to find  
Her spells that make them all  
Unite

When the night goes dark tonight  
All the souls come out to rise  
Her scents will lead the way  
Inside

Now let them in to join my rite  
Let the darkness be their guide  
The witch is back to cast her spells again

Monsters we are  
We rave through the night  
Monsters we are  
Have a feast tonight  
Monsters we are  
Crawling through the dark  
Monsters we are  
With the skin full of marks

Monsters... We are the monsters  
Monsters... We are the monsters

When the mist comes down to earth  
All the spirits come to life  
She summons all to join  
The dine

When the darkest sun gives birth  
All the spirits come to light  
She calls upon them all  
To bind

And now the circle is complete  
Have a seat and start to eat  
The time is now to celebrate again

Monsters we are  
We rave through the night  
Monsters we are  
Have a feast tonight  
Monsters we are  
Crawling through the dark  
Monsters we are  
With the skin full of marks

Monsters... We are the monsters  
Monsters... We are the monsters

Monsters we are  
We rave through the night  
Monsters we are

Have a feast tonight  
Monsters we are  
Crawling through the dark  
Monsters we are  
With the skin full of marks

Monsters... We are the monsters  
Monsters... We are the monsters  
Monsters...
