

# Nightfall

Warkings

Once I stood as king  
But the stars betrayed me  
As the tide is turning  
We're united

Like a distant song  
Comes the sound of thunder  
This ain't what I want at all  
But we're united

Nightfall  
Stars bear witness  
We will fight till the end of time

Pray for the nightfall  
Fight till the downfall  
What a shame, but who's to blame  
I'm left to feel the pain  
Pray for the nightfall  
Fight till the downfall  
Soldiers die, the gods defy  
As heaven starts to cry  
And my name will fade to stone

With the clash of steel  
Alexander rises  
In a tide of fire  
We're united  
As my soldiers flee  
Screaming to the heavens  
But the gods are silent  
We're united

Nightfall  
Stars bear witness  
We will fight till the end of time

Pray for the nightfall  
Fight till the downfall  
What a shame, but who's to blame  
I'm left to feel the pain  
Pray for the nightfall  
Fight till the downfall  
Soldiers die, the gods defy  
As heaven starts to cry  
And my name will fade to stone

Nightfall  
Stars bear witness  
As we die for the dynasty  
Nightfall  
Stars bear witness  
We will fight till the end of time

Pray for the nightfall  
Fight till the downfall  
What a shame, but who's to blame

I'm left to feel the pain  
Pray for the nightfall  
Fight till the downfall  
Soldiers die, the gods defy  
As heaven starts to cry

Soldiers die, the gods defy  
As heaven starts to cry  
And my name will fade to stone
