

Warriors

Warkings

We are the children of the morning star
The fire in the sky, guardians of the fall
We ride the thunder, lightning is our sword
The blaze across the eastern sky, keepers of the call
Forevermore

We are warriors, warriors
Dragons of the night
Riding with the thunder side by side
We are warriors, warriors
Fire in the sky
Riding on the wind until we die
Until we die

We are the shadow and the dragon's call
Born to fight and die, order of the dark
We bring the rain, we ride along the dawn
Knights within the heart, servants of the blood
Forevermore

We are warriors, warriors
Dragons of the night
Riding with the thunder side by side
We are warriors, warriors
Fire in the sky
Riding on the wind until we die
Until we die

We are warriors, warriors
Dragons of the night
Riding with the thunder side by side
We are warriors, warriors
Fire in the sky
Riding on the wind until we die
Until we die
