

We Are The Fire

Warkings

We are the fire in the sky
The world is ours
We will fight the night
We bring the war, we brave the storm
The tide has turned
We never stand alone

Now fly our banners
Show them no fear

We are the fire
We are the flame that lights the night
We are the fire
We are the thunder of the gods
We are the fire

We are irresistible
Spread the word
Our time is now
Now onward, ready, charge
Let the fight for freedom
Ring with this song

Now fly our banners
Show them no fear

We are the fire
We are the flame that lights the night
We are the fire
We are the thunder of the gods
We are the fire

We are the fire
We are the light
We are the hammer
We will fight

We are the fire
We are the light
We are the hammer
We will fight

We are the fire
We are the flame that lights the night
We are the fire
We are the thunder of the gods
We are the fire
