

## Send Nudes

Warpaint

You can ride the train to heaven alone  
If you decide to leave, I'll let you go  
But still our love grows wild like a vine  
Morning loving and loving into the night  
All through the night

Send a couple nudes, baby  
Send a couple nudes, baby

If you say my name I'll be right there  
Here I am under your clothes and stuck in your hair  
Humming our favorite song right in your ear  
All out loving, loving year after year  
Mmm-mmm
