Angels

Warrant

Oh, yeah

Take a sip, do a dip, feel like Elvis's Friday night
Leather boys with their dope from the east side of the tracks

Give me your love
Down here on earth we are waiting for your return

Angels, send love
In the shape of your heart and the look in your eyes
I dream of your body, your face, and your mind and your soul

I've got the wind in my face and the night beats down on my back
Shake your ass, hit the clubs where the music hits you like a heart a ttack

Give me your love
Down here on earth we are waiting for your return

Angels, send love
In the shape of your heart and the look in your eyes
I dream of your body, your face, and your mind
Angels, send love
In the shape of your heart and the look in your eyes
Feeling your body, your face, and your mind and your soul

Making love
To help if you like what's going on in my mind
With you heart and soul
This world's not the same without your love

Take a sip, do a dip, feel like Elvis's Friday night
Leather boys with their dope from the east side of the tracks

Give me your love
Down here on earth we're still waiting

Angels, send love
In the shape of your heart and the look in your eyes
I dream of your body, your face, and your mind
Angels, send love
In the shape of your heart and the look in your eyes
Feeling your body, your face, and your mind and your soul

Angels, send love
Angels, angels
Send love
Oh, yeah
In the shape of your ass and the feeling you get when you're stoned
