Hell, CA

Warrant

Nobody move!

Somewhere inside me is a space invader
I'm up and down like an elevator
I'll stick around but I'll see you later
Yeah
If I could have all the time I've wasted
I'd lick a lot of things I never tasted
Can't draw a picture if you've only traced it
I'm out on the road and wasted

If you want to get to Heaven gotta go through Hell (California)
If you want to get to Heaven gotta go through Hell (California)
Every now and then you make it but you just can't tell, yeah yeah
If you want to get to Heaven gotta go through Hell (California)

I think I live in the wrong dimension
I'm trying hard, I need a new invention
I want everything that I can mention
Yeah
I'm flying high but I'm on the ground (On the ground)
I've yelled my head off but I don't make sound (Don't make a sound)
You can find my in the lost and found (Lost and found)
Or out on the road and wasted

If you want to get to Heaven gotta go through Hell (California)
If you want to get to Heaven gotta go through Hell (California)
Every now and then you make it but you just can't tell, yeah yeah
If you want to get to Heaven gotta go through Hell (California)

You can kick me, you can hit me
You can drag me when I'm down
You can pave the Road to Ruin
But I'll just go around

Somewhere inside me is a space invader
I'm always looking for a new creator

If you want to get to Heaven gotta go through Hell (California)
If you want to get to Heaven gotta go through Hell (California)
Every now and then you make it but you just can't tell, yeah yeah
If you want to get to Heaven gotta go through Hell (California)
If you want to get to Heaven gotta go through Hell (California)
Every now and then you make it but you just can't tell, yeah yeah
If you want to get to Heaven gotta go through Hell
