

## Let It Go

## Warrant

You got a place inside my heart  
Where no one else could ever be  
We both knew it from the start  
Love is a two way street and

When it was right it was right as rain  
We just can't go back again

Tired of holding onto all the past  
I want something that can last  
And I'm ready to cleanse my soul  
And let it go, let it go

Used to drive me crazy to the brink  
Everytime I tried to talk to you  
Made me wonder should I stop and think  
That leavin' you is overdue

When it was right it was right as rain  
We just can't go back again

Tired of holding onto all the past  
I want something I can last  
And I'm ready to cleanse my soul  
And let it go, let it go

Tired of holding onto all regret  
Restless days income so sad  
And I'm ready and now I know  
To let it go, let it go

Tired of holding onto all the past  
I want something that can last  
And I'm ready to cleanse my soul

Tired of holding onto all regret  
Restless days income so sad  
And I'm ready and now I know  
To let it go, let it go

Tired of holding onto all the past  
I want something I can last  
And I'm ready to cleanse my soul  
And let it go, let it go

Tired of holding onto all regret  
Restless days income so sad  
And I'm ready and now I know  
To let it go, let it go

(Tired of holding onto all regret)  
(Tired of holding onto all regret)  
And let it go
